Every journey has a beginning.

A WORD OF WELCOME FROM OUR FOUNDERS

Ours started more than thirty years ago, with our father, a single taxi, and a simple belief: that a traveller placed in your care should be looked after as a guest, not a customer.

From that one car grew a lifetime of work — more vehicles, then transfers, then the countless small details that turn a trip into an experience. We are the daughters who grew up inside that story, in Denizli, in the heart of Anatolia — a land where ancient cities, sacred routes and living traditions meet. What our father built with his hands, we have carried forward and expanded, and Travione Global is where three decades of that experience now open onto the world.

We are not new to this. We are the distillation of thirty years — and Travione is the door through which that experience reaches you. Today we are a full-service company: flights, hotels, transfers, tours, and the technology that ties it all together. But the belief at the centre has never changed. When an agency abroad places its travellers in our hands, it places its reputation there too, and we treat that trust exactly as we were taught to: quietly, honestly, and completely.

We are rooted in Anatolia, and we are built to serve the world. We would be honoured to welcome your travellers as our own — and to continue, with you, a story that is already thirty years in the making.

With warm regards from Anatolia,

Meryem Yorulmaz & Melek Dalkılıç

Co-Founders, Travione Global

DENİZLİ · 2027

A full-service travel company, rooted in Anatolia.

Travione Global is a licensed Turkish travel company based in Denizli, at the heart of Anatolia — within reach of Pamukkale, Ephesus, and the ancient and sacred landscapes of the Aegean. Built on more than thirty years of family experience in travel and transport, we operate today as a complete destination management company, serving partners and travellers across Türkiye and beyond.

We work as the local partner behind travel agencies, tour operators and organisations worldwide. When you send your travellers to Türkiye, we become your presence on the ground — handling every detail with the care of a host and the precision of a professional.

Powered by our own technology

Most travel agencies rent their technology. We build ours. Behind every reservation and itinerary sits software we designed and run ourselves — our own booking platform and operational systems, tuned exactly to the way we work. And our technical capacity reaches beyond travel: we have the infrastructure and the team to develop and license our own software products. Technology is not something we outsource; it is part of who we are.

Standardised strength, tailor-made flexibility

Our real advantage lies in doing both, and doing both well. We have the capacity to run standard programs reliably throughout the year, and the flexibility to customise every detail for a single group. A fixed itinerary delivered flawlessly a hundred times over, or a one-of-a-kind journey shaped around a group's wishes — we handle both with the same precision. Scale and personalisation are not a trade-off for us.

What we believe.

OUR VISION

Whatever we do, we do it as an act of hospitality.

A business can be measured in transactions, or in the trust it earns. We choose trust. Whether we are moving a single traveller from an airport to a meeting, or guiding forty across the country for sixteen days, our vision is the same: to be the name people rely on to do it properly — with care, with excellence, and with the warmth of a good host.

OUR MISSION

Every person is an island — a whole world, complete in themselves.

And a happy island makes the waters around it calmer. We believe that every person we send on a little happier is, in some small way, a contribution to a happier world. The one guest transferred quietly to a meeting and the group of forty on a two-week journey are worth exactly the same to us, and receive exactly the same attention. There are no small clients and no minor details — only people, each deserving of our best.

--- WHAT WE VALUE

Hospitality

Anyone can provide a service; we offer the feeling behind it — the sense of being genuinely looked after.

Equality of Care

One guest or forty, a transfer or a grand tour: the same attention, the same standard, always.

Excellence

Quietly and completely. The best work is the kind the guest never has to think about.

Stewardship

We travel gently, protecting the environment we move through for those who come after us.

Heritage

The ancient cities and stories in the stone are not ours to spend, but ours to protect and pass on.

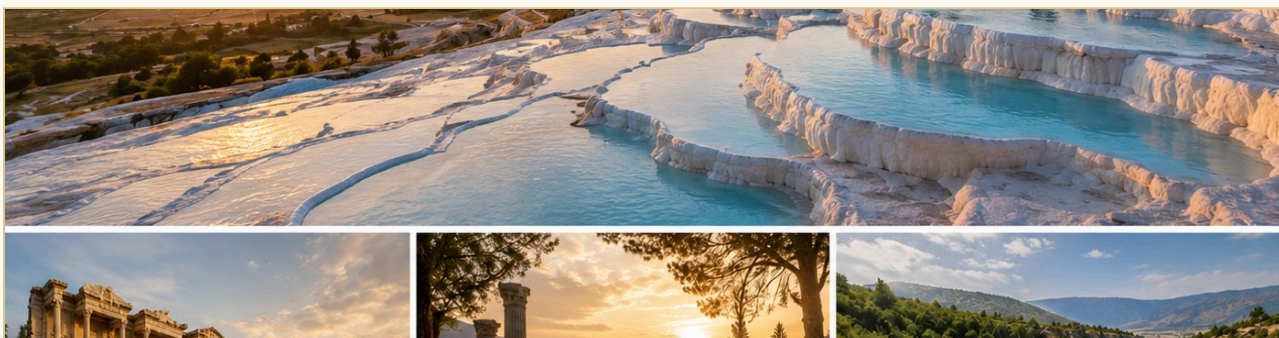

THE THREAD THROUGH EVERYTHING

“We don't serve customers. We welcome guests. Somewhere in that difference lies everything we believe.”

We'll take you anywhere in Türkiye. But let's be honest about where we're best.

Travione is, first and foremost, a child of the southwestern Aegean. This is our home — Denizli, Pamukkale, and the sweep of ancient coastline and countryside around it. We know these roads not from a map, but from a lifetime of living on them. We run journeys the length and breadth of the country — but a Türkiye program without the southwest is like a symphony missing its finest movement. We'll happily show you all of it; we'd just quietly insist you don't leave our part out.

— Ancient Cities

Ephesus, the best-preserved classical city of the Mediterranean. Aphrodisias, Sardis, Pergamon — marble streets and theatres in every direction. And Laodicea, minutes from our office, still rising from the earth.

— Wellness & Thermal

Long before the word "spa" existed, people came here to heal. The thermal springs of Pamukkale and Karahayit have drawn visitors for over two thousand years — the same waters that fed ancient Hierapolis.

— Natural Wonders

Pamukkale's dazzling white travertine terraces, cascading down the hillside like frozen waterfalls. An Aegean coast of turquoise water, harbour towns and endless olive groves.

— Faith & Heritage

This we hold above all — for no other place on earth can claim it. The **Seven Churches of Revelation** lie almost entirely within a short drive of our home. This is where early Christianity took root, where Saint Paul walked and Saint John wrote, and where the House of the Virgin Mary still draws pilgrims worldwide. Even on a general tour, a single afternoon at Ephesus leaves a traveller changed — wherever your program goes, we'll gently suggest you let it pass through here.

— Flavour & Life

The village restaurant a group will still be talking about a year later. Local wine from vineyards the guidebooks miss. A way of life older than memory — this, too, is our region.

Anatolia is vast. We'll guide you across all of it — starting from the part we love most.

Exceptional journeys across Anatolia.

Follow the map. Every route is a complete, ready-to-sell program — and every one can be reshaped around your travellers' pace, interests and budget. This is Anatolia as only those who live here can show it.

Your Journey

ANY LENGTH · THEME · GROUP

The most important route isn't drawn yet — yours. Tell us the days and the group; we build the rest.

Seven to begin with.
An eighth waiting to be written.

Tell us your travellers' wishes, and we'll craft the rest — from a fixed program run flawlessly to a one-of-a-kind route no one else could design.

Let's design it together →

One partner in Türkiye, endlessly adaptable.

Every agency works differently, and we see that as an opportunity, not an obstacle. We don't ask you to fit our model — we build ours around yours. Whatever the shape of the collaboration, our answer starts with *yes, let's find a way.*

WAYS WE WORK TOGETHER

You bring the group, we run the ground.

You handle the travellers and the sale; we take care of everything inside Türkiye — hotels, transport, guiding, logistics — and offer you a fair commission on every booking.

Full white-label DMC.

Sell our journeys under your own brand. We stay invisible; you stay the face your clients know and trust.

We source, you guide.

Have expert guides or leaders of your own but no local operation? We find and build the groups; you bring your people to lead them. Your expertise, our ground.

Anything in between.

Joint programs, referrals, seasonal blocks, one-off custom requests — if it serves your travellers, we'll design the arrangement to match.

--- WHAT YOU CAN COUNT ON

- ✦ Fair, transparent terms — clear net rates, no hidden costs
- ✦ Fast communication via our own systems
- ✦ Standard programs or fully tailored ones
- ✦ A single, reliable point of contact
- ✦ A fully licensed, regulated Turkish agency
- ✦ The same quality, delivered either way

The perfect division of labour.

No one understands your clients better than you do. Do they want every dinner included, or the freedom to explore on their own? A five-star hotel and a private yacht, or a lighter budget with more time for museums and markets? These are the details that make or break a journey — and you already know the answers.

You are the voice of the traveller

When you bring us a group, you guide us — you tell us who they are and what they value. This is why we specialise in closed groups: a homogeneous group is a happy one, where everyone wants roughly the same experience.

We are the hands on the ground

We translate what you know into flawless local execution. On the ground in Türkiye there is one point of contact and one team who knows this land intimately: us.

AND ONE THING MORE

We don't do this out of a hunger for profit. We do it because service is what we know, and what we love. A partnership with Travione is not a transaction to maximise — it is a relationship to build, and to keep. Send us your travellers, and we will look after them as if they were our own guests. Because to us, that is exactly what they are.

Let's find the way that works for you.

Peace of mind, built in.

In this business, trust is not a slogan — it is paperwork, licenses and guarantees that hold up when it matters. When you place your travellers and your money in our hands, you deserve to know exactly what stands behind us. Here it is, in plain terms.

Fully licensed & regulated

Travione Global operates under a **TÜRSAB Category A license (No. 18673)** — the highest tier of travel agency accreditation in Türkiye, authorising the full scope of travel services under Turkish law.

Certified & connected

Our systems are integrated with leading global travel-technology providers, giving real-time access to a vast inventory of flights and hotels — and the confidence of trusted industry networks.

Internationally verified

A **D-U-N-S registered company (No. 520016738)**, independently verified in the global Dun & Bradstreet business directory — the standard trusted by partners and institutions worldwide.

Corporate & compliant

A fully incorporated company with proper accounting, e-invoicing integrated with the Turkish Revenue Administration, and complete financial transparency. Everything documented, declared, done by the book.

Secure payments

All transactions run through **QNB's secure virtual POS** with 3D Secure and bank-grade encryption. Card data is never stored; your money moves safely and traceably.

A regulated agency. A verified company. Secure systems and full accountability — so the only thing you and your travellers need to think about is the journey.

We keep good company.

Trust is earned twice over — once through credentials, and once through the partners who choose to work with us. From schools and institutions to industry leaders and the world's foremost travel technologies, these are some of the names who place their trust, and their travellers, in our hands.

Every partnership here began as a single conversation. We'd be glad to add yours.

Technology & Innovation.

We are a travel company — and a technology company at the same time. The systems behind our tours are designed, built and run by us; the source code, the data and the servers are ours. Every problem we solve in the field runs first in our own operation, then becomes a product others can use. If an idea solves a problem, we build it and put it to work.

Our own team

Product, software and operations under one roof. Nothing is outsourced to an agency; every idea is tested in software first, and hardware comes only once the need is proven in the field.

One shared platform

All products share the same identity, permission, payment and reporting layer. Role-based security; data access restricted at row level, so every client sees only its own data.

We are the first user

What reaches the market has already run in our own operation. Analytics are standard in every product; decisions rest on data we collect ourselves, not on guesswork.

A company is only as good as the people who run it — and ours treats this work as a calling, not a job. We are a close-knit group, part family and part partnership, each bringing a different strength to the same purpose. When you work with Travione, you are never handed from one anonymous department to the next; you work with people who know your name, your groups and your standards, from the first enquiry to the last farewell.

Rooted in Anatolia, and made of the people who call it home.

You've heard our story. We'd love to hear yours.

For the length of this booklet, we've done all the talking. But a partnership is never a monologue — it's a conversation. So now we close the way every good relationship begins: by listening.

IN SHORT, HERE'S US

A TÜRSAB-licensed (Category A) travel company in Denizli, in the heart of the Aegean — your full-service ground partner in Türkiye. We handle **inbound tours & DMC, flights, hotels, licensed guiding, car rental & VIP transfers, MICE and tailor-made journeys**, backed by our own booking technology. Rooted in the land of Pamukkale, Ephesus and the Seven Churches — and ready to take your travellers anywhere in the country.

Tell us about yourselves — your travellers, your markets, the way you like to work. Tell us what you need, and let's find the way we fit together. We don't believe in one-size-fits-all, and we don't believe in pressure. This isn't the end of a brochure. It's the beginning of a conversation.

Let's talk.
